Automation Technician - Digital Services (night shift 6:45pm - 7am) Sumter, SC

Your tasks

Brief Summary of Position

In this role you will be responsible for keeping operations running by troubleshooting, repairing, and maintaining production equipment, with a focus on Digital Service and Controls & Drives tasks.

HOW YOU WILL MAKE AN IMPACT

- Play a vital and highly valued role in keeping our operations running to support the achievement of the plant's business goals and objectives
- Troubleshoot and restore various machines and equipment to operability in all Production Areas, focused on, but not limited to, the Digital Service tasks.
- Provide the first Digital Service technical support for the plant during the shift.
- Expand technical knowledge through highly diversified job duties and interface with the Digital Service Engineers for the troubleshooting and debugging of Manufacturing Systems (CGMS, MCAT, MMS, CGRS, FFDACS, etc.) tech support, Siemens and Beckhoff PLCs and Drives troubleshooting, IPC Management, Cyber Security applications and other automation technologies around all manufacturing areas.
- Provide technical support on Digital Service applications, such as Octoplant (Versiondog), Acronis, Barracuda, Group Policy, Domain integration, LANDesk, etc.
- Provide technical Digital Service support for Maintenance, IT, Process, Projects, Quality, Utilities and Production.
- Support the development and application of automation projects for the whole plant and support the roll out of Digital Service applications and solutions.
- Support the development of innovative Digital Service solutions to ensure continuous process improvements, scrap reduction, increase equipment availability and improve performance.
- Support Maintenance with installation of production equipment
