Associate Buyer

Tus tareas

The Associate Buyer is responsible for the sourcing, procurement, and supplier management of Raw Materials (RM) and Non-Production Materials (NPM) for the Clinton Tire Plant. This role ensures a reliable, cost-effective supply of materials and services that support production, maintenance, quality, inventory, and financial objectives. The Associate Buyer partners with suppliers, central purchasing teams, and internal stakeholders to manage sourcing activities, supplier performance, inventory needs, and continuous improvement initiatives while ensuring compliance with company procurement policies.

HOW YOU WILL MAKE AN IMPACT

- Manage the sourcing, purchasing, and supply of raw materials, packaging, MRO items, consumables, services, and other non-production materials required to support plant operations.
- Execute procurement activities including supplier selection, quotations, negotiations, contract administration, purchase order management, and SAP master data maintenance.
- Develop and maintain strong supplier relationships to ensure quality, delivery, service, and cost objectives are achieved.
- Lead supplier negotiations related to pricing, contracts, service agreements, claims, corrective actions, and performance improvements.
- Monitor supplier performance and drive corrective actions as needed to improve quality, delivery, responsiveness, and overall value.
- Analyze supplier markets, spend data, and sourcing opportunities to identify cost savings, mitigate supply risks, and improve supply continuity.
- Support implementation of local, regional, and global sourcing strategies with a focus on total cost of ownership, operational efficiency, and sustainability.
- Participate in supplier evaluations, audits, qualifications, and development activities to support business and sourcing objectives.
- Establish and maintain contracts, blanket orders, consignment programs, and other purchasing agreements that optimize inventory and supply performance.
- Collaborate with production, planning, inventory control, warehouse, and maintenance teams to ensure material availability and uninterrupted operations.
- Monitor demand requirements, inventory levels, and supply conditions to balance operational needs with inventory optimization goals.
- Support new product launches, material changes, capital projects, and continuous improvement initiatives through effective procurement and supplier engagement.
- Resolve procurement-related issues involving purchase orders, goods
