Working Student - Communications and Learning Development for Tire Manufacturing (m/f/d) - REF100115U

Vos activités

Join us in shaping the future of Production and Industrial Engineering

At our Industrial Engineering department in Hannover-Stöcken, we create sustainable value by driving efficiency, organizational and digital transformation in Production. And we want you to be part of that journey. We are looking for a motivated **Working Student** to support our **Communication and Training department**, who wants to turn ideas into impact and support us through this transformation.

In this role, you will play a key part in developing training programs for our Production and Industrial Engineering Tires community. You will work collaboratively with cross-functional teams to create effective communication materials and facilitate training initiatives that enhance operational excellence and employee development. This position offers valuable hands-on experience in a dynamic industrial environment while contributing meaningfully to our organization's success.

The position is available for **up to 20 hours per week**, **starting as soon as possible**, ideally for a period of **12 months**.

Your tasks:

- Support internal communication and community management within the global Industrial Engineering Tires network
- Create and maintain communication channels and materials (SharePoint, Viva Engage, presentations, videos, newsletters)
- Assist in organizing events, training sessions, workshops, and conventions
- Support the development of training materials and learning content
- Collaborate with teams to identify training needs and improve learning initiatives
- Contribute to internal communication and marketing activities
- Support operational excellence, continuous improvement, and lean management projects
- Provide administrative and organizational support for communication and training activities

Votre profil

- Currently enrolled in Business Administration, Marketing, Communications, Media Design, or a related field
- Experience in content creation, presentations, and digital communications
- Skills in visual design (e.g., posters, infographics, video editing)
- First experience in training development or educational content creation is a plus
