

Project Manager Mechanical Design (m/f/div) - REF13735C

Your tasks

We are looking for you to support our area User Experience at the location Babenhausen.

Your tasks as a project manager mechanical design will focus on the following activities:

- Managing a mechanical sub project for head-up-displays and cooperation with local and international Continental locations
- Creation, check and release of technical documents (drawings, specification, etc.)
- Opto-mechanical system integration of head-up-display products into the car-dashboard
- Calculation, optimization and quality assurance of parts and sub-assemblies using simulation, tolerance-calculation, FMEA etc.
- Coordinating and controlling of all mechanical project activities for local and international design team setup
- Planning of tasks and assigning them to project team members and establishing regular team meetings
- Developing and maintaining mechanical project plan with cost, schedule, quality etc.
- Representing the own subject at customer, supplier and other internal departments
- Taking care for standardization of concepts and design for manufacturability (DFM)
- Responsibility for regular budget reviews for the mechanical sub project

Your profile

- Academic degree in mechanical engineering or similar qualification
- Professional experience with mechanical design (plastic, magnesium-die-cast etc.)
- Professional experience in leading a mechanical sub project
- Good skills using CAD-Software PTC-Creo
- Well experienced knowledge with MS-Office-Programs
- Very good written and spoken German and English language skills
- High level of communication competency
- Team player
- Intercultural competency

Applications from severely handicapped people are welcome.

About us

Continental develops pioneering technologies and services for sustainable and connected mobility of people and their goods. Founded in 1871, the technology company offers safe, efficient, intelligent and affordable solutions for vehicles, machines, traffic and transportation. In 2022, Continental generated sales of €39.4 billion and currently employs around 200,000 people in 57 countries and markets.

The Automotive group sector comprises technologies for passive safety, brake, chassis, motion and motion control systems. Innovative solutions for assisted and automated driving, display and operating technologies, as well as audio and camera solutions for the vehicle interior, are also part of the portfolio, as is intelligent information and communication technology for the mobility services of fleet operators and commercial vehicle manufacturers. Comprehensive activities relating to connectivity technologies, vehicle electronics and high-performance computers round off the range of products and services.
