

Manual Tester Intern

Feladatok

We are looking for creative minds who are passionate to shape the future of autonomous driving and to bring world class testing solutions into our products.

Your Task

- Execute manual tests on software applications to ensure quality and functionality.
- Identify, document, and track software defects.
- Collaborate with development teams to understand requirements and provide feedback.
- Participate in the creation and maintenance of test cases and test plans.
- Assist in the preparation of test reports and documentation.

Profilja

- Basic understanding of software testing principles.
- Familiarity with bug tracking tools and test management software.
- Ongoing studies at a Hungarian university for 6 months at least in a technical area: Computer Science, Electronics, Electrical Engineering or related area.
- Good command of English language.
- Able to work 24 hours/week.

Nice to have

- Attention to detail and strong analytical skills.
- Have team player attitude and good communication skills.
- Be able to collaborate and work in an agile team environment.
- Be interested in industry leading technologies, patterns, processes and best practices.
- Experience with manual testing tools.

Ajánlatunk

- An inspiring local team and collaboration in our international development network.
- Dynamic, youthful corporate culture and a challenging role with end-to-end responsibility.
- A mentoring program that offers the chance to receive guidance and knowledge from our seasoned colleagues in a close-knit environment.
- An opportunity for career advancement as we offer three tiers of internship levels, allowing you to progress further on your career path.
- New and modern office in the heart of Budapest (near Calvin square).

Ready to take your career to the next level and join us at the start of something extraordinary? Apply now to become a part of AUMOVIO and drive the future mobility together with us!

Rólunk

Continental's Automotive group sector is expected to be listed as independent company "AUMOVIO" in September 2025. With ~93,000 employees worldwide and annual sales of ~€20 billion, we are entering an exciting new era.

AUMOVIO stands for highly developed electronic products and modern mobility solutions. In addition to its strong market position with innovative sensor solutions, displays, and technologically leading braking and comfort systems, AUMOVIO has significant expertise in software, architecture platforms and assistance systems for the rapidly growing future market of software-defined and autonomous vehicles. Our purpose is clear: to make future mobility safe, exciting, connected, and autonomous.
