Deep Learning Data Engineer Intern

Jūsų užduotys

At our ADAS Deep Learning Competence Center, we are working on the most innovative systems of modern times, the “eye” of autonomous driving. Our aim is to develop deep learning techniques that sense and understand the vehicle environment, based on single cameras or multi-sensor networks.

We are looking for creative minds who are passionate to shape the future of autonomous driving and to bring deep learning techniques into our camera products: forward looking cameras, surround view cameras, high resolution 3D flash lidar, and sensor fusion systems.

Your Task

- As a member of the Data Annotation Team you will participate in the implementation of data management tools
- Responsible to operate Python data pipelines
- Implement ad-hoc data processing scripts using Python
- Support the daily work of AI Data Engineers and Data Managers
- To see under the hood, and see how the data (the fuel of the deep learning algorithm development) is prepared.

Reikalavimai

- Experience in Python programming language
- Familiar database managements systems, concepts
- Ongoing studies at a Hungarian university for 12 months at least
- Excellent English knowledge
- Able to work from 24-40 hours/week - between 9am and 5pm
- Be able to work on your own.

In addition, it would be beneficial to have

- Accomplish the tasks accurately and precisely
- Paying attention to details
- Team player attitude and great communication skills
- Experience with Scrum or other Agile framework

Mes siūlome

- An inspiring local team and collaboration in our international development network.
- Dynamic, youthful corporate culture and a challenging role with end-to-end responsibility.
- A mentoring program that offers the chance to receive guidance and knowledge from our seasoned colleagues in a close-knit environment.
- An opportunity for career advancement as we offer three tiers of

internship levels, allowing you to progress further on your career path.
- New and modern office in the heart of Budapest (near Kalvin square).
- Flexible working hours and work-from-home arrangements.

Ready to take your career to the next level and join us at the start of something extraordinary? Apply now to become a part of AUMOVIO and drive the future mobility together with us!

Apie mus

Continental's Automotive group sector is expected to be listed as independent company "AUMOVIO" in September 2025. With ~87,000 employees worldwide and annual sales of ~€20 billion, we are entering an exciting new era.

AUMOVIO stands for highly developed electronic products and modern mobility solutions. In addition to its strong market position with innovative sensor solutions, displays, and technologically leading braking and comfort systems, AUMOVIO has significant expertise in software, architecture platforms and assistance systems for the rapidly growing future market of software-defined and autonomous vehicles. Our purpose is clear: to make future mobility safe, exciting, connected, and autonomous.
