

Supplier Quality Engineering - Technical Assistance (m/f/d) - REF19653I

Ihre Aufgaben

We are looking for you, a Supplier Quality Engineering - Technical Assistance (m/f/diverse), to support our business area Original Equipment Solutions at the location Karben.

Your tasks will focus on the following activities:

- Supporting the project team in preparing suppliers for projects until SOP (start of production)
- Conducting maturity evaluation in collaboration with the project team, especially advanced purchasing
- Performing and following up on supplier component reviews with the project team
- Supporting the decision-making process for supplier nomination
- Supporting the supplier during the product development phase and process development phase until SOP
- Evaluating milestones and due dates
- Planning and conducting necessary R@R (risk and readiness) processes (processes and capacities)
- Tracking and closing processes
- Engaging in direct communication with the supplier
- Approving supplier, process and product
- Defining the SLC (supplier lifecycle) criteria with the project team

Ihr Profil

- Bachelor's degree (Master or equivalent preferred) with a technical background
- Experienced in operations and/or Quality Management and/or R&D
- Leadership experience with small project teams (2-6 people)
- Strong technical background including project management
- Knowledge of mechanical processing, injection/blow-molding, rubber technologies and assembling
- Certified VDA 6.3 auditor
- Fluent English language skills written and spoken, German language skills are desirable
- Occasional participation in international teams

Advanced Skills:

- Familiarity with FIDES, SCR 1 + 2, APQP, safe launch concept, run+rate and capacity evaluation
- Expertise in process approvals and experience with VDA 6.3
- Understanding of differences between VDA and similar international core tools
- Knowledge of GD&T (geometric dimensioning and tolerancing) for measurement
