

IT Software Developer Intern

Náplň práce

The Local IT Software Developer Intern will be part of the local IT team, contributing to software development and automation projects. This hands-on role requires strong technical curiosity, a problem-solving mindset, and the motivation to learn and grow in a collaborative environment.

Key responsibilities:

- Analyze technical and functional software requirements to propose efficient and aligned solutions.
- Develop and test internal applications following the organization's coding standards and best practices.
- Automate repetitive processes using tools such as UiPath, Python scripts, or custom-built solutions.
- Design and maintain efficient and secure databases, primarily using MySQL or SQL Server.

Profil kandidáta

- Currently enrolled in a **Bachelor's degree program** in Computer Science, Software Engineering, or a related field.
- Expected graduation **no earlier than one year from now**.
- Strong interest in software development, automation, and problem-solving.
- Experience with at least one programming language (e.g., **Python, C#, Java**).
- Familiarity with frameworks such as **.NET, Laravel**, or similar.
- Basic knowledge of **HTML, CSS, and JavaScript**.
- Exposure to **RPA tools** like **UiPath** or **Power Automate** (academic or personal projects welcome).
- Knowledge of **SAP** systems is a plus.
- Intermediate English level preferred.
