Acerca de nosotros

The ContiTech business area focuses on smart and sustainable solutions beyond rubber and develops digital and intelligent solutions in future-oriented sectors. In doing so, ContiTech draws on its long-standing knowledge of the industry and materials to open up new business opportunities by combining various materials with electronic components and individual services. The products, systems and solutions developed by ContiTech are used both in the automotive industry as well as in railway engineering, machine and plant construction, mining, agriculture and other important sectors of the future.
