

# Department Head - UX System Engineering Excellence (m/f/diverse) - REF25567X

## Descrição da função

We are looking for you, a **Department Head of UX System Engineering Excellence (m/f/diverse)**, to lead and drive several topics in R&D to achieve system engineering excellence in the following areas:

- Technical compliance management system (TCMS) in R&D in all technical compliance categories, i.e., product safety, product conformity, product cybersecurity & privacy, product environmental compliance
- Systems engineering governance
- Functional safety management governance
- Project services (system design FMEA, configuration management, product data management)

Your tasks will focus on the following activities:

- Functionally lead the global teams in the areas of responsibility mentioned above:
  - Define strategy and provide guidance to worldwide teams
  - Organize global synergies and standardize processes
  - Drive efficiency improvements
  - Balance resources on worldwide basis
- Roll out the TCMS framework, ensuring deployment in all projects
- Coordinate and manage the activities related to governance of system engineering (e.g., system management, system deployment and system engineering improvements)
- Standardize and harmonize processes, methods, tools for the worldwide R&D community
- Support audits to ensure the process compliance (e.g. A-SPICE)
- Plan & track budget / resources and employee development for local team

## Requisitos

- Academic degree in engineering or equivalent qualification
- Several years of experience in the R&D in the automotive industry (system engineering would be an advantage)
- Several years of experience in management and leadership of distributed teams
- Experience in defining and deploying system engineering processes, methods, and tools
- Experience in cooperation with internal and external stakeholders and interdisciplinary and international project teams
- Knowledge of system engineering processes and audit standards (e.g. ASPICE)
- Knowledge of technical compliance management systems would be an advantage
