

Controlling Specialist

Jūsų užduotys

We seek a highly motivated and detail-oriented Controlling Analyst to join our dynamic team. The Controlling Analyst will be responsible for various financial activities, including budgeting, forecasting, period-end closing, fixed assets management, external audits, and other related controlling tasks as assigned. The ideal candidate will possess strong analytical skills, an in-depth understanding of financial principles, and the ability to work collaboratively in a fast-paced environment.

Key Responsibilities:

Budgeting:

- Develop and maintain the annual budget in collaboration with relevant stakeholders.
- Monitor budget performance and provide insights into variances.
- Assist in budget revisions and adjustments as necessary.

Forecasting:

- Conduct regular reviews of financial forecasts and update as needed.
- Identify potential risks and opportunities and communicate findings to the management team.
- Prepare and present forecasts for various financial metrics.

Period End Closing:

- Prepare and post journal entries for period-end financial closings.
- Assist in the setup and reversal of accruals.
- Perform account reclassifications to ensure accuracy and compliance with financial standards.

Fixed Assets Management:

- Manage the investment, capitalization, and disposal of fixed assets.
- Oversee internal and intercompany asset transfers.
- Maintain the Asset Lapsing Schedule.

External Audits:

- Coordinate and assist in the end-to-end process review and walkthrough for external audits.
- Prepare schedules and provide details of operating expenses.
- Compile and maintain detailed listings of leases, Property Plant and Equipment (PPE), and transaction summaries.
- Collaborate with auditors and provide documentation as needed.

Others:

- Engage in various controlling activities assigned by the management team, including ad-hoc reporting, compliance assessments, or
