

Deputy Production Manager (Tires)

Náplň práce

Ready to take your next step toward shaping the future in motion?

Now could be the perfect time for you to utilize your strengths, develop your skills, and embrace your next challenge here at Continental.

Your Responsibilities

We have an exciting opening for a **Deputy Production Manager**, based in Timișoara. In this role, you are part of our Manufacturing & Logistics function, and focus on refining the planning, organization, and coordination of our production activities as a strong partner to our Production Manager.

Your main responsibilities of this role will be to:

- **Shape and learn.** Dedicate time to learn about operational topics, ongoing projects and production activities and take ownership to actively shape your responsibilities and remit to ensure future business success in production.
- **Create and improve.** We are looking for a collaborative team-player to strive in a creative way for quality improvements and reduction of non-conform materials as well as ensuring our safety measures and adjusting if necessary.
- **Engage and communicate.** You will have to communicate a lot with your plant manager and their management board, your superintendents and of course your employees and people working on the shopfloor. The major purpose is to motivate, engage and coach them for best performance.
- **Develop and grow.** Our people are in the center of our strategy and therefor topics like learning and development are of utmost importance. Your role is to ensure a safe learning environment in the plants, where people strive for growth and constant moving out of their comfort zone.

Profil kandidáta

To highlight what success for this role look like, you will need to utilize your strength in communication, your passion for state-of-the-art technology, and high sensitivity for people topics.

Your key strengths and qualification include:

- Minimum 3 years of manufacturing experience in an automotive and or tire manufacturing facility.
- Minimum 3 years of previous leadership experience; ideally lead multidisciplinary teams (business team formed of quality, process, industrial engineers)
- Advanced knowledge about PROMT Methodologies, SPS Methods,
