

Product Development Compliance/Regulations Analyst - Materials

Your tasks

THE COMPANY

ContiTech is one of the world's leading industry specialists. The Continental group sector offers its customers connected, environment-friendly, safe and convenient industry and service solutions using a range of materials for off-highway applications, on rails and roads, in the air, under and above the ground, in industrial environments, for the food sector and the furniture industry. With about 42,000 employees in more than 40 countries and sales of some 6.8 billion euros (2023), the global industrial partner is active with core branches in Asia, Europe and North and South America.

Are you ready to shape the future with us?

THE POSITION

The Compliance/Technical Regulations Analyst - Materials (TRA) is responsible to develop and implement communication strategies including training programs to share product compliance information with engineering, supply chain management, and other Corporate support groups, as well as customers and suppliers.

The TRA is responsible to inform affected stakeholder and helps to assess the impact on their operations.

- Develop and implementation of programs to ensure product compliance with existing and developing global restricted substance regulations including European Union ROHS, European Union REACH, European Union WEEE, US Conflict Minerals, California Prop 65, and chemical management systems such as US TSCA and respond to customer requests.
- Participate in external authorities and association meetings to identify, understand, contribute to, and predict future relevant Legal Technical Regulations (LTRs) and applicable National and/ or International Standards
- Advocate for the Continental Position in the respective authorities and association meetings
- Inform affected stakeholder and enable them to assess the impact on their operations
- Align the official Continental Position by moderating the discussion between the contributing Experts and Stakeholder
- Initiate IMDS and labeling of products
- Develop Common Interpretation together with relevant technical Experts
- Optionally request support for clarification (e.g. legal implications between various regions) by a Continental Legal Counsel and/ or further Technical Regulations Experts on technical issues
- Provide Common Interpretation in Central Database
