Software Test Engineer - Engineering Platform

Your tasks
In your role as Software Test Engineer, you will be responsible for the design, piloting, and rollout of existing and new Assisted/Automated Driving Control Unit (ADCU) projects. In addition, you will review the different test methods starting from build acceptance tests, integration tests, nightly tests, platform tests and define and pilot suitable generic approaches in customer projects.

Your Tasks
- Ensure that a standard testing methodology is applied to all new ADCU projects
- Support projects in setting up the initial test environment and coach them in its use
- Collection of lessons learned from the current projects and definition of countermeasures for the upcoming projects
- Support the identification of future test scopes and define automated test procedures for these scopes
- Coordinating the various test teams worldwide and ensuring that they follow a common strategy.

Your profile
- At least 3 years’ experience in SW Testing preferably in ADCU projects
- Experience in ASPICE desirable
- ISTQB foundation level certificate desirable
- Experience on all test levels (software, system, and system integration) desirable
- Experience in handling HIL test environments desirable
- Scripting knowledge (CAPL, Python, etc.) desirable
- Tools knowledge (CANoe, Test Studio, VT Systems, Debugger Tools like Lauterbach) desirable
- You are highly motivated and love to drive content together with other colleagues.

Our offer
What we offer
- Participation in exciting, highly innovative projects
- A friendly, respectful and collaborative work environment that encourages creativity and innovation
- Continuous development with access to numerous trainings, including technical skills, soft skills and language skills
- Personal career development and a challenging role with end-to-end responsibility
- Opportunity to see your ideas turn into reality with our test vehicles
- Competitive compensation and a wide range of benefits, including:
- Bonus system
- Annual flexible benefit (Cafeteria)
- Private health insurance
- Employee discounts
- Sport pass support
- Ability to directly deliver software into real, innovative products
- Flexible work-from-home arrangements
- Easily accessible office location in downtown Budapest (near Kálvin square).
