

Processes & Projects (Temporary)

Vaše náplň práce

Based on the GS SCM Strategy, Guidelines, Processes & Standard:

- Ensure the implementation of SCM processes, systems & standards, together with GS SMART SCM and according to the common CT digitalization and transformation roadmap

- Implementation of SCM systems; striving to maximize the efficiency, reliability, time-and cost effectiveness, exceeding customer expectations.

- In allignment with GS SCM, Design, develop and implement BA specific processes - independent analysis, validation and implementation of optimization measures within existing SCM processes

The team will be responsible for the monitoring of process and system utilization across complete SCM organization (derived from this, if necessary, countermeasures in cooperation with the Head of SCM BA to ensure sustainability).

In close alignment with GS SCM & GS HR:

- Support the GS SCM people development, training and competence approach

- Refine and maintain qualification concept, skills matrix (qualification requirements), job descriptions, training plans and training materials for all SCM related functions.

- Responsible for continuing to improve oneself with the knowledge and skills

- Able to be adaptable, take initiative and maintain positive attitude.

- One that lives the Corporate Core Values.

- Ensure compliance of SC processes with all applicable internal (Group, Sector, BA) and external regulations (laws, norms, customer specifications & agreements, policies, guidelines ...).

Ensure & support teamwork, cooperation and alignment with GS SCM, other BA SCMs and all other relevant functions.

Have a pro-active approach to cross-functional communication with a special focus continuously improving/optimizing interfaces, using standardized digital solutions where is possible.
