

# Supplier Development Quality Engineer (German & English speaking)

## Your tasks

YOUR RESPONSIBILITIES WILL INCLUDE:

- Evaluation and selection of supplier processes for new sourcing parts in the sourcing team (ME, SCR).
- Implementation of APQP process in the pre-production phase.
- Approval of PPAP processes, inspection and release of PPAP for first and change samplings.
- Complaint handling with 8D methodology.
- Coordination of rework, sortings and rejections of shipped parts with support of a local colleague in Frankfurt.
- Planning, preparation and implementation of VDA 6.3 audits and supplier assessments.
- Coordination and follow-up of change management tasks (PCN), and collection of QRC.
- Further development of production processes and supplier quality assurance methods at the suppliers.
- Focus technologies: Casting and machining, functional plastics, rubber and turning.
