

# Project Engineer Operational Technology Infrastructure (m/f/d) - REF45328M

## Ihre Aufgaben

As part of our Manufacturing Technology Engineering organization, our Operational Technology (OT) Cybersecurity & Infrastructure team is developing and implementing state-of-the-art solutions, and supporting our tire plants globally. Due to our continuous growth, we are looking for an Electrical/Automation/Software Engineer (m/f/diverse) in our location in Hanover/Stöcken, to drive implementation, roll-out and support of our RFID and Geolocalization solutions, in Continental Tires plants.

You will be part of a motivated engineering team driving digitalization and Industry 4.0 projects and activities on global scale.

Your tasks in detail:

- Owner of MTE Digital Solutions strategy on OT Infrastructure, focusing on RFID and Geo-localization solutions (including roadmap and standards)
- Driving development and roll-out projects in Manufacturing Technology globally, and provide support in Machine Acceptance
- Providing 3rd level support (Incident/Change/Problem Management), ensuring continuous availability of RFID and Geolocalization systems
- Coordinating Troubleshooting - Knowledge Management - Trainings on OT Infrastructure solutions worldwide
- Application/process owner, being key contact for all stakeholders
- Technology scouting, identifying and testing new solutions in the area of OT Infrastructure

Are you passionate about shaping the future of manufacturing with state-of-the-art OT Infrastructure solutions?

We will be happy to welcome you in our OT Cybersecurity & Infrastructure team.

Submit your English CV and come to explore the position in detail.

## Ihr Profil

- Academic degree in engineering (e.g. mechanical, electrical, mechatronic, process, hardware/software engineering) or similar qualification
- Several years experience in Engineering functions, preferably from plant and/or central perspective, in design, implementation and ramp-up of Manufacturing Technology solutions
- Proven experience in Project Management
- Preferably experience in collaboration with remote, intercultural teams
- Advanced knowledge in Operational Technology (OT) solutions (PLCs,

## Über uns

Continental develops pioneering technologies and services for sustainable and connected mobility of people and their goods. Founded in 1871, the technology company offers safe, efficient, intelligent and affordable solutions for vehicles, machines, traffic and transportation. In 2021, Continental generated sales of €33.8 billion and currently employs more than 190,000 people in 58 countries and markets. On October 8, 2021, the company celebrated its 150th anniversary.

With its premium portfolio in the car, truck, bus, two-wheel and specialty tire segment, the Tires group sector stands for innovative solutions in tire technology. Intelligent products and services related to tires and the promotion of sustainability complete the product portfolio. For specialist dealers and fleet management, Tires offers digital tire monitoring and tire management systems, in addition to other services, with the aim of keeping fleets mobile and increasing their efficiency. With its tires, Continental makes a significant contribution to safe, efficient and environmentally friendly mobility.
