of hoses that are used in numerous industrial applications, including oil and gas extraction, the food industry, water, chemicals, pharmaceuticals, mining, mechanical engineering, and many other fields.

Since 2019, we have been part of the Continental Group, a German multinational corporation, a leader in the automotive industry, with a turnover of about 44 billion with 250 thousand employees worldwide. Our organizational structure consists of about 130 production lines, 200 extruders, and 20 presses, for a daily production of around 450,000 mt per day, with approximately 500 employees in two production sites, Daverio and Varano.
