

EMC Simulation Internship for Qualification Laboratory (TM)

Ihre Aufgaben

Do you want to be part of our EMC Simulation team?

If you join us, your responsibilities will be:

- EMC Design and EMC & Signal Integrity Simulation in order to guarantee EMC conformance and ensure a successful Design and Product Validation;
- Analysis of simulation results and of possible design improvements on schematic/circuitry development, PCB layout or mechanical design;
- Ensure correlation with test results from Pre-compliance, Design Validation or Product Validation rounds;
- Perform Ethernet measurements;
- Ensure good collaboration with project teams and EMC laboratory.

Ihr Profil

- 3rd or 4th year Student in the field of Electronics and Telecommunications or related field;
- Basic knowledge on EMC especially in terms of IC, circuitry and PCB design, EMC simulation tools and implementation;
- Basic knowledge on EMC measurements: techniques, equipment and standards;
- Basic knowledge on hardware/high speed design (digital technology, signal processing, power electronics, signal integrity, power integrity);
- Basic Project Management skills;
- Good English language speaking and writing skills.

Unser Angebot

What we offer:

- Integration Program in a professional, young & dynamic team;
- A mentor for your learning period;
- Competitive Salaries & Benefits;
- Recommendation Bonuses for new team members;
- Flexible working hours for your studies.

Wellbeing:

- Health & Wellness (Private Health Insurance, Life Insurance, Sport activities etc.);
- Different discounts (glasses, tires, medical, shopping);
- In-house restaurant & coffee corners.
