

# SAP Basis Consultant

## 담당 업무

Continental's digital capabilities are growing every day. Our Tires IT team is building a cloud-based data center for the future - and we want you to join us!

Our diverse, global team creates new SAP systems, performs upgrades, and manages performance and integrations across all of Continental's SAP systems. We're also creating a leading cloud-based data center that will ensure information flows even more smoothly to Continental teams around the world.

As SAP Basis, you will be in close cooperation with SAP application team, CKU organization and central data center provider, assuming these key responsibilities:

- SAP System admin maintenance support, including SAP upgrades, workload analysis, system health checks;
- Participate in rotational On-Call weekend production support;
- Collaborate with SAP DC providers, operations & application teams for system reliability & performance;
- Ensure SAP operations based on internal/external audit requirements;
- Provide technical consulting to application development and functional teams;
- Lead and participate in technical projects across multiple global application teams;
- Proactively identify and act on opportunities to improve processes and identify innovative methods to translate business requirements into technology infrastructure improvements.

## 지원자 프로필

- Academic degree in Computer Science, Information Technology, or a related field;
- Working as a SAP Basis consultant position for >3 years;
- Project management skills;
- Analytical and strategic thinking skills;
- Intercultural sensitivity;
- Self-organized working style;
- Efficient troubleshooting capabilities;
- Great customer service and interpersonal skills;
- Professional working proficiency in English.

## 채우 조건

Our offer:

- Integration in a dynamic international work environment and team;
- Collaborative and Agile workstyle;
