

ESH Manager

Your tasks

- Coordinate all ESH activities for the plant
- Align and transform group and BA ESH strategy into action plans and ensure implementation
- Contribute to strategic and operative planning of the plant/operations unit (e.g. with respect to investments, capacity and headcount planning)
- Live and promote the ESH principles and methods (e.g. advise Plant Management on all ESH aspects)
- Plan and implement occupational safety (e.g. safety briefings, legal obligations, hazardous substances management) according to standards
- Plan and implement environmental protection (e.g. legal obligations regarding hazardous substances management, waste management, emissions and risk control and management, etc.) according to standards
- Plan and implement medical services (e.g. plant medical officer, workplace ergonomics, industrial hygiene management, etc.) as well as occupational health management according to standards
- Implement external (e.g. ISO 14001, ISO 45001, ISO 50001) and internal (e.g. ESH management manual, tools, KPIs) ESH standards and legal requirements and provide feedback and input for further development of standards
- Ensure structured root cause analyses of incidents, define and implement sustainable measures. Operate ESH performance monitoring (e.g. by KPI and target tracking) and identify, prioritize and implement ESH improvements (e.g. for work instructions, etc.)
- Provide feedback and input for further development of standards regarding ESH processes (e.g. workshop concepts, methods, tools, etc.) to segment, BU or BA functions
- Lead plant EHS committee (define targets, plan and implement personnel training, act as point of reference with plant unions and RLS, identify and propose corrective actions, gather feedback and suggestions for continuous improvement, make EHS policies/rules/procedures available)
