Product Development Engineer for Motorcycle Tires (m/f/d) - REF50810X

Your tasks
Within the area of Motorcycle Tire Development, we are looking for a new tire development engineer (m/f/diverse) to strengthen our team as the part of Research & Development Team of Specialty Tires.

In this exciting job, you will have the following tasks:

- Project lead of motorcycle tire development with specific focus on performance, timing, cost of specification and product quality
- Developing competitive high performance MC tires for worldwide applications, including radial and bias tire design according to market needs and tire construction
- Planning and evaluation of benchmarking for MC tires
- Ensuring product performance and product compliance to all current and upcoming legal and industry standards
- Product line responsibility during full life cycle of the product
- Identification of opportunities for simulation of tire performance, orders and follows-up simulation tasks
- Planning and execution of risk assessments and FMEAs
- Performing of structured problem-solving within standard processes
- Filing of invention disclosures and patents for tire design
- Cooperation with engineering and manufacturing on the topics of new production equipment for MC tires

Your profile

- University Degree (Master or Diploma) in Engineering or Science
- Experience in product development - ideally tire development
- Work experience within the motorcycle or tire industry is appreciated
- Passion for motorcycles is appreciated
- Very good experience in project management
- Solid MS Office tools and CAD skills
- Fluent in English (written and spoken)
- Self-organization and ability to work independently
- Advanced communication and collaboration skills and capability to work in international teams
- Committed team player with inspiring can-do-mentality
- Willingness to act and to take over responsibility
- Structured, fact driven, transparent and ‘embracing’ work style
- Availability for travelling

Applications from severely handicapped people are welcome.

Our offer
We offer the following benefits:
• Salary based on Chemical Industry Tarif / Potential to an out of Tarif salary contract
• 30 day of paid vacation per year
• Three extra days per year for individual use (called: future value)
• Attractive career development opportunities
• We offer balanced working conditions by doing mobile work, working part-time, flexible working time as well as Sabbatical options
• Cross-Border mobile work options up to 40 days per year from other EU countries
• Company Pension plan
• Attractive employee benefits with discounts
• Diverse offers that support a better “work-family” balance (e.g. company childcare places and free emergency care for your children)
• Discounted access to the Egym Well-Pass for accessing sport facilities across Germany
• A highly diverse environment across our location
• A new canteen on site with a variety of lunch options

If this sounds like a perfect match for you and if you want to become the next supporter of our core values: Trust, for one another, passion to win and freedom to act - we are looking forward to receiving your application.
