

SAP Controlling Consultant Asia Pacific

Your tasks

- Central Key User for the global Controlling Systems in the Tire Sector. These systems include the Controlling processes handled in SAP ERP Tempo (modules CO, IM-PS, CO-PC, CO-PA) and the Analytics and Planning Processes handled in SAP BW eBITs (MARKIS, Kompas, Cosimo, Drive).
- Worldwide project/support responsibility within Controlling Systems
- Conceptual design, development and documentation of business processes related to the eBITs applications and SAP CO.
- Implement and enforce business requirements and corporate standards in system solutions.
- Change Management: Prepare conceptual changes and extensions. Coordinate and test system modifications that are performed by internal and external service providers.
- Incident Management: Second Level Support to the Local Key User Organization, resolve user issues and requests, coordinate solutions with IT.
- Maintain central master data and business rules for all Controlling Processes
- Consult and train the users in central departments and tire companies.
- Participation / leadership of international projects (rollouts, new developments).
- Coordination and reconciliation tasks during the month end closing process.
- Creation of process documentation for local key and end users.
- Planning and execution of trainings and workshops for local key and end users.
