

Blue Yonder ESP/SCPO Solution Architect

Your tasks

Continental's digital capabilities are growing every day. Our Supply Chain Information Technology Competence Center is the digital backbone of our company's Tire business – and we want you to join us!

Our multinational, diverse team of technologists, mathematicians and business pros provides technology solutions to ensure that the more than 140 million tires Continental sells globally every year are produced and end up in the right place at the right time.

The team uses artificial intelligence, machine learning and advanced analytics to forecast customer demand and plan our global tire production. We're ultimately focused on the customer experience and the continuous improvement of our supply chain.

We're setting up a new Tires IT HUB in Bengaluru and you will be one of our first team members. If you love to build something new, Continental is the perfect match for you. Join us in this thrilling adventure and shape the team with us.

In this exciting job you work on the following tasks:

- Transforming business requirements into the supply chain planning solutions
- Designing, building, and implementing solution enhancements (based on Blue Yonder ESP/SCPO) in varying scale that transform business requirements into business value
- Contributing to strategic concepts and managing technical projects
- Developing and maintaining a resilient system design which allows to run business critical applications
- Ensuring service operations along agreed service level agreements
- Developing young talents by sharing your experience

Your profile

- Academic degree in computer science, business informatics, software engineering or an equivalent qualification
- Several years of work experience with Blue Yonder ESP / SCPO solutions in a technical role
- Several years of work experience with Blue Yonder solutions for forecast netting (Order Promiser, OP) and Sales & Operations Planning (S&OP) in a technical role
- Several years of work experience in IT projects and system operations, being responsible for work packages and work streams
- Comprehensive knowledge of Linux environments, shell scripting and oracle database programming (PL/SQL)
- A completed migration project to a Blue Yonder ESP / SCPO solution beneficial
- A passion for high quality
