

# Working student - Strategy and Digitalization - Training Platform (m/f/d) - REF52594N

## 工作职责

As the Strategy & Quality Digitalization department at our Hanover-Stöcken site, we are shaping the process digitalization of the global research and development of the Tire Division. As internal process consultants, we support the organization in its digital transformation.

In this exciting working environment, we are offering a position as a working student (m/f/d) for up to 20 hours per week starting on May 1, 2024. Ideally, the duration should be 12-18 months.

Your tasks include the following activities:

- The aim is to develop an interactive training platform for research and development in the tire sector. Your creativity and technical skills are needed to create a user-friendly and engaging platform
- Engage in dialogue with key decision-makers and users to understand their needs and ensure that the solutions developed meet their requirements
- Together with the experts, develop new training materials in the form of videos/interactive learning content (tts performance suite)/manuals and other exciting tasks, such as support in digitization projects
- Share your knowledge and enthusiasm by helping to deliver training and sharing your skills with others

## 你的档案

- Ongoing studies in all fields of study
- Knowledge of website design
- Confident handling of MS Office-programs (optional: SharePoint knowledge)
- Fluent knowledge of English and German language
- Ability to work in a team, good organizational skills as well as a careful and independent way of working
- Ability to explore new topics and tools independently, high level of commitment

Please remember to upload your current certificate of enrollment as well as your current grades, as these are required for further processing of your application.

If necessary, please submit Your valid residence permit as well as your work permit including an additional sheet.

Applications from severely disabled people are welcome
