Mandatory Internship - Product Development Port and Earthmoving Tires- REF52794I

Your tasks

Are you looking for a mandatory internship and an exciting opportunity in the field of product development? Then you've come to the right place!

We are offering mandatory internship to support our team for the product development group OFF THE ROAD TIRES (OTR – Port & Earthmoving Tires) in the Specialty Tires business unit in Hannover-Stöcken from ~April 2024 for a period of 4-6 months. It is also possible to combine a compulsory with a voluntary internship during your studies. The internship takes place on site.

Your tasks include the following activities:

- Support of development projects for new OTR products and product improvements (bias and radial tire design)
- Support of the development team in the field of CAD
- Preparation and evaluation of test and performance data
- Development of standardization concepts for our international production sites
- Participation in multifunctional projects
- Independent processing of subtasks

Your profile

- Students of an engineering or natural sciences course of study
- CAD knowledge desirable
- No fear of big data, experience with Tableau or PowerBI desirable
- Confident handling of MS Office-programs
- Good knowledge of English, knowledge of German desirable
- Good teamwork, self-organization and communication skills
- You can work independently as well as in a team, you are open-minded and enjoy working with a global community

Please attach your current certificate of enrollment and also your current transcripts of records and an extract of certificate for a mandatory internship. Those documents are mandatory for processing your application.

If required, please submit your valid residence permit as well as your work permit including additional sheet.

Applications from severely handicapped people are welcome.
