

Teamcenter Client Customization Consultant

Vaše náplň práce

Continental's digital capabilities are growing every day. Our Information Technology Research and Development team is on the cutting edge of all things digitalization - and we want you to join us!

Our IT R&D organization constantly establishes new technology to help R&D Tires design and develop the best-performing and most sustainable tires on the market. Naturally, we work in close partnership with the Tire Research and Development team to ensure the solutions we build help the Tire team be the most efficient and effective it can be.

We're setting up a new Tires IT HUB in Bengaluru and you will be one of our first team members. If you love to build something new, Continental is the perfect match for you. Join us in this thrilling adventure and shape the team with us.

In this exciting job you work on the following tasks:

- Implementing solution for Teamcenter RAC and active workspace customization based on requirements
- Writing design documents for the Teamcenter based implementation
- Supporting application teams in Teamcenter upgrades
- Supporting application team in migration of Teamcenter client from RAC to active workspace
- Participating in IT Software projects using the Teamcenter platform
- Supporting project team by sharing expertise on Teamcenter client customization
- Identifying and proposing optimizations of existing Teamcenter customization.
- Ensuring Teamcenter internal knowledge transfer

Teamcenter is widely used tool for product data management. Teamcenter is our main framework to support the process of tire and material specification, mold specification and digital solution. To support our business in the best way the Teamcenter product has been customized. This position enables us to cover the growing demand of Teamcenter customization and upgrade our existing projects.
