

# Incoming Inspection Engineer

## Tvoji zadaci

- RM inspection for critical Raw Material at receipt stage for material like Carbon, Silica, 6PDD, Wax, ZnO , CBS / TBBS.

- Test Method development for Critical RM testing.

- NIR Test Equipment** will ensure quick and accurate judgement on incoming material Quality (**Decision on procurement to be taken - 104K Euro or 9.4 M INR**).

- To perform the inspection of reinforcement activities as now handed over from MPE team to QA w.e.f 1st March 24.

- Supplier interaction, communication and complaint management.

- Supplier visits for action implementation verification.

Must have good knowledge of Rubbers, Fillers, Rubber Chemicals ,Textiles and steel cords.

Must have knowledge & perform testing of rubber chemical used on rubber industry like Rubber, carbon black, Silica, Oil, accelerators, textile etc.

Good knowledge and experiences of wet chemical analysis.

Must have knowledge of sophisticated analytical testing like FTIR / UV-Vis etc. Also have the capability to interpret the results.

Fabric testing knowledge & releasing.

Steel cord & metal breaker testing knowledge & releasing.

Must have knowledge of test method development and modification as per internal standard.

Knowledge of internal standard like ASTM/ ISO / IS in the field of rubber/polymer is a must.

Must know the common good laboratory practice.

Knowledge of NABL will be added advantage.

Proficient in new test method development and documentation in accordance to IS / ASTM internal standards

Daily report preparation, record updation and fair presentation and communication skills.

Supplier communication and supplier related complaint management.

Structured problem solving - Root Cause analysis and problem solving tools.

Data Analysis.

Rubber mixing knowledge will be added advantage.

Should have knowledge in Rheometer & Mooney viscosity testing.

3rd Party Test according to Annual Layout / COA and Inspection plan  
Releasing the GRN of Local and imported parts in SAP system, and decision on lot's tag.

Block Available stock in case of any nonconformance & 100%

Pravno lice  
**Phoenix Conveyor Belt India Private Ltd.**

Inspection for all available  
suspected lot.

To coordinate with supplier and Logistics for SQRC recovery.

Supplier Visits regarding Continuous improvements and ensure the  
effectiveness of implemented  
processes Requirements.

Maintain good relationship with Internal customers e.g., MPE, Quality  
Lab, PPI, PUR, SCM,  
Production.

Core tools knowledge:- Statistical process control, MSA, FMEA, PPAP,  
A3, 8D, Process Mapping.

## **Tvoj profil**

University level Bachelor's Degree in Polymer Science & technology or  
Rubber Technology

Or MSc. In Chemistry

## **Naša ponuda**

Communication, Presentation, Analytics, Problem Solving

Ready to drive with Continental? Take the first step and fill in the online  
application.

## **O nama**

Continental develops pioneering technologies and services for  
sustainable and connected mobility of people and their goods. Founded  
in 1871, the technology company offers safe, efficient, intelligent and  
affordable solutions for vehicles, machines, traffic and transportation. In  
2022, Continental generated sales of €39.4 billion and currently  
employs around 200,000 people in 57 countries and markets.

The ContiTech group sector develops and manufactures, for example,  
cross-material, environmentally friendly and intelligent products and  
systems for the automotive industry, railway engineering, mining,  
agriculture and other key industries. Guided by the vision of “smart and  
sustainable solutions beyond rubber,” the group sector draws on its  
long-standing knowledge of the industry and materials to open up new  
business opportunities by combining various materials with electronic  
components and individual services.
