

Maintenance Supervisor

Descrição da função

In this role you will be responsible for supervision and coordination of Union craft technicians on your shift. You will be responsible for escalation/handover/coordination with production during shifts, monitoring and coordinating overtime costs/PTO/time tracking, spare part costs, and monitoring PM programs and schedules with the PM coordination team. This position will report to the Maintenance Superintendent.

Responsibilities:

- Manage and Lead the Union Craft technicians to reduce equipment downtime and increase time to failure
- Make decisions on the best course of action in regards to equipment down time and scheduling the multi craft according to PM's and down equipment
- Promote and monitor Safety throughout and your area and in the plant
- Promote and train TPM/PM concepts and effective problem solving (CBS, 5 why, Clean, Inspect, Repair)
- Mentor and train (or request training) as necessary, to ensure the team is capable and effective in maintenance and repair of equipment
- Manage performance of maintenance team and address deficiencies when necessary
- Monitor and ensure execution of PM tasks, follow up on completion and quality of work
- Document attendance, vacations, etc. and perform other administrative functions for the maintenance team
- Collect and assign maintenance best practices for consistency across all shifts
- Partner with team to address hands-on maintenance activities as required
- Responsible for performance feedback, updating your manager with situation reports and approving PTO
- Use of maintenance analytical tools (Power BI, PUMA, SAP PM) to support reliability improvement and cost management
