

Internship Optical Engineering for Head up Display UX (TM)

工作职责

You will:

- Be part of the HUD PDC (Product Development Center) in business area User experience;
- Work in an international team;
- Be involved in a wide product range with different display sizes (from 1.8" to 3.1" display and bigger for new generations of HUD);
- Learn about the latest technologies on the market: combiner HUD, windshield HUD or even AR HUD (Augmented Reality);
- Be helped in your technical journey by having a mentor;
- Will also have an initial training which will help you get familiarized with our products, tools, processes and organization;
- Have the chance of a career path in development and / or some expert fields, based on experience and know-how;
- Have flexible working hours as part-time student.

Our motto: Good Mood in the HUD!

You will learn:

- To generate and verify optics for HUDs (and of course how to use the specific tools for that);
- To make optical measurements;
- To offer support for error analysis;
- To create the documentation, according to the process.

你的档案

- Student at Physics or Mechanical Engineering;
- Will be considered a plus: Creo know-how and / or good optical know-how;
- Good communication skills and English spoken and written;
- Wish to learn new things;
- Passion to win by working in a team.

我们可以提供

- Integration Program in a professional, young & dynamic team;
- A mentor for your learning period;
- Competitive Salaries & Benefits;
- Recommendation Bonuses for new team members;
- Flexible working hours for your studies.

Wellbeing:

- Health & Wellness (Private Health Insurance, Life Insurance, Sport activities etc.);
- Different discounts (glasses, tires, medical, shopping);
