

Production Planning Intern

あなたの仕事内容

The Production Planning Intern will assist the Production Planning Department in coordinating and optimizing production schedules, managing inventory, and ensuring the smooth operation of manufacturing processes. This internship provides an excellent opportunity to gain practical experience in production planning and supply chain management within a dynamic manufacturing environment.

Key Responsibilities:

- **Assist in Production Scheduling:** Support the development and maintenance of production schedules. Ensure alignment with customer orders, inventory levels, and production capacity.
- **Inventory Management:** Assist in monitoring inventory levels, conducting regular inventory checks, and maintaining accurate records. Help identify and address inventory discrepancies.
- **Data Analysis:** Analyze production data to identify trends, bottlenecks, and areas for improvement. Provide insights and recommendations to enhance production efficiency.
- **Demand Forecasting:** Assist in demand forecasting by analyzing sales data and market trends. Help align production schedules with forecasted demand.
- **Capacity Planning:** Support capacity planning efforts to ensure optimal utilization of production resources. Assist in identifying and addressing capacity constraints.
- **Cross-Functional Collaboration:** Work closely with production, procurement, and logistics teams to coordinate production activities and ensure timely delivery of products.
- **Process Improvement:** Participate in process improvement initiatives to enhance production planning and scheduling processes. Assist in implementing best practices and standard operating procedures.
- **Reporting:** Assist in preparing and maintaining production planning reports, dashboards, and performance metrics. Ensure timely and accurate reporting to management.
- **Special Projects:** Participate in special projects and initiatives as assigned. Provide support for ad-hoc analysis and reporting related to production planning.

あなたのプロフィール

- **Education:** Currently pursuing a degree in Industrial Engineering, Supply Chain Management, Operations Management, Business Administration, or a related field. Students must be at a minimum sophomore standing with a GPA 2.8 or higher.
- **Technical Skills:** Proficiency in Microsoft Office Suite, particularly

- Excel. Familiarity with production planning software (SAP) is required.
- **Analytical Skills:** Strong analytical and problem-solving skills. Ability to interpret production data and provide actionable insights.
 - **Attention to Detail:** High level of accuracy and attention to detail. Ability to work with complex data and ensure precision in reporting.
 - **Communication Skills:** Excellent verbal and written communication skills. Ability to effectively communicate with cross-functional teams.
 - **Team Player:** Ability to work collaboratively in a team environment. Willingness to learn and take on new challenges.
 - **Time Management:** Strong organizational and time management skills. Ability to prioritize tasks and meet deadlines.

Benefits:

- **Professional Development:** Gain hands-on experience in production planning and supply chain management. Develop skills and knowledge in a real-world manufacturing environment.
- **Mentorship:** Receive guidance and mentorship from experienced production planning professionals. Learn from industry experts and build valuable connections.
- **Networking:** Opportunity to network with professionals across various departments. Build relationships that can support your career growth.
- **Potential for Full-Time Employment:** High-performing interns may be considered for full-time opportunities upon graduation.

Students from locations outside of the United States must be employed by Continental in their home country or actively enrolled in a Continental sponsored international intern program in order to be considered for an internship in the United States. The Company does not sponsor visas for international interns.
