

## IMDS & Material Reporting Specialist (m/f/d) - REF60851F

### Descrição da função

We are looking for you for our "Processes and Regulations" area.

Your tasks are:

- Responsible for the creation and maintenance of material data sheets in the IMDS (International Material Data System) as part of the product life cycle for our product range;
- Independent implementation of corrective measures in case of rejections;
- Independent updating of material data sheets based on regulatory, market or customer-specific requirements;
- Contact person for regulatory issues relating to materials used;
- Support in defining, establishing and improving processes and procedures for material data creation.

### Requisitos

- Completed studies in the technical field (e.g. in the field of quality, materials science) or alternatively completed vocational training in the technical field;
- Several years of professional experience in the automotive industry, preferably in a development or quality-related context;
- Safe handling of IMDS;
- Good knowledge in English, both written and spoken;
- High problem-solving skills and initiative;
- Independent way of working, ability to work in a team as well as open and clear communication;
- Affinity for digitized workflows .

## Quem somos

Continental develops pioneering technologies and services for sustainable and connected mobility of people and their goods. Founded in 1871, the technology company offers safe, efficient, intelligent and affordable solutions for vehicles, machines, traffic and transportation. In 2023, Continental generated sales of €41.4 billion and currently employs around 200,000 people in 56 countries and markets.

The ContiTech group sector develops and manufactures, for example, cross-material, environmentally friendly and intelligent products and systems for the automotive industry, railway engineering, mining, agriculture and other key industries. Guided by the vision of "smart and sustainable solutions beyond rubber," the group sector draws on its long-standing knowledge of the industry and materials to open up new business opportunities by combining various materials with electronic components and individual services.
