

eXplore Tires Manufacturing Trainee - Tires

Vaše náplň práce

Grow Your Career in Tire Manufacturing!

Take the next step in your technical career by joining a team where innovation and hands-on experience come together in tire production.

What You'll Learn:

Tire Production & Rubber Technologies: Work directly with tire manufacturing processes, rubber materials, and production flow.

On-the-Floor Experience: Understand how operations run daily by being present where the action happens.

Manufacturing Programs: See how key production programs support central projects and business results.

Work With Experts: Collaborate with our central engineering team and expand your technical knowledge.

Cross-Functional Exposure: Discover how different departments contribute to production success.

Expand Your Network: Connect with colleagues from across the plant, central teams, and international peers.

Performance & Reporting: Learn how we track production, use data, and follow industry best practices.

Váš profil

- Academic background in Engineering (Mechanical, Industrial, Chemical, Electrical, or Quality);
- Minimum 1 year of experience in a technical role (engineering, production, or process-related);
- Advanced English skills, both spoken and written;
- International exposure through internships or academic exchange programs;
- Strong analytical skills and a structured, solution-oriented mindset;
- Project management experience is a plus;
- Openness and availability for international travel.

Co nabízíme

eXplore Tire Manufacturing & Engineering Graduate Program

Duration: Up to 18 months

Phase 1 – Practical Experience (10–16 months):

- Start with hands-on experience in tire production.
- Work in a real production setting.
- Tackle your first project at the plant.

Phase 2 – Central Placement (6–9 months):

- Join a graduate pool in Hanover with peers from around the world.
- Participate in exciting projects and learn about tire development and our global business model.
- Attend technical training programs to gain new skills.
- Use your soft skills and build a global network.
- Gain insights into research and development processes for tires.
- Collaborate on a global business contract with other graduates.
- Present your project results to top management.

Looking forward to seeing you grow with us!

O nás

Continental develops pioneering technologies and services for sustainable and connected mobility of people and their goods. Founded in 1871, the technology company offers safe, efficient, intelligent and affordable solutions for vehicles, machines, traffic and transportation. In 2024, Continental generated sales of €39.7 billion and currently employs around 190,000 people in 55 countries and markets.

With its premium portfolio in the car, truck, bus, two-wheel and specialty tire segment, the Tires group sector stands for innovative solutions in tire technology. Intelligent products and services related to tires and the promotion of sustainability complete the product portfolio. For specialist dealers and fleet management, Tires offers digital tire monitoring and tire management systems, in addition to other services, with the aim of keeping fleets mobile and increasing their efficiency. With its tires, Continental makes a significant contribution to safe, efficient and environmentally friendly mobility.
