

2025 Internship - Compound Engineering

หน้าที่ความรับผิดชอบในงานของคุณ

The Compound Engineering Intern is charged with unique and exciting opportunity of assisting the Compound Engineering Department in the development and evaluation of race winning rubber compounds. The position will be trained in different aspects of processing, testing and evaluation of racing compounds and race tire manufacturing.

Job Responsibilities

1. Perform assigned projects.
2. Study and become familiarized with elastomer technology, rubber compounding ingredients, and mixing/testing equipment.
3. Learn how various ingredients affect critical compound properties (hardness, strength properties, traction properties, etc.) by performing laboratory experiments and thoroughly analyzing the data.
4. Attend races and tire tests to experience “hands-on” performance of race compounds.
5. After acclimating, design and lead your own project related to compound performance, compound processing, thermodynamics of tire curing, etc.
6. Regular written reports (e-mails) for project updates.

โปรไฟล์ของคุณ

Minimum Requirements

- Be a student who is enrolled full-time and pursuing an undergraduate or graduate degree from an accredited college/university and will be enrolled full-time in Fall 2024.
- Be majoring in or having majored in Compound Engineering

Have an overall cumulative GPA of 3.0 or higher (unofficial academic transcripts must be provided at the time of application)
