

# Financial Administration Consolidation & Reporting Systems (m/f/diverse) - REF73008L

## Feladatok

The role will support the setup and continuous operation of the group consolidation and reporting system for the future standalone automotive sector. This role involves assisting in global coordination and management of change processes related to group financial statements and reporting in the group consolidation & reporting system. The ideal candidate will work closely with senior team members, assist in managing budgets, and ensure compliance with internal and external reporting requirements.

- **System Support:** Assisting in ensuring the functionality and continuous development of the group consolidation & reporting system
- **Stakeholder Coordination:** Supporting the management of stakeholders involved in consulting departments on system-related issues
- **Feasibility Studies:** Assisting in conducting feasibility studies for implementing solutions to business requirements
- **Concept Development:** Helping develop and implement business concepts for the consolidation & reporting system in collaboration with departments
- **IT Implementation:** Assisting in translating business concepts into IT solutions and oversee their implementation together with IT
- **Problem Analysis:** Supporting the analysis and resolution of technical and business issues during the reporting process
- **Process Optimization:** Assisting in continuously optimizing processes and application components
- **Knowledge Transfer:** Providing application knowledge to users and coordinating with internal and external project staff
- **System Responsibility:** Acting as a contact for the overall consolidation & reporting context to ensure professional system administration and application maintenance
- **Data Management:** Helping maintain master data within the system and ensuring the timely availability and high quality of monthly, quarterly, and year-end reports
- **User Support:** Assisting in ensuring structured global user support and prioritizing critical processes
- **Training:** Helping develop and conduct international training sessions for all user classes
- **Budget Management:** Assisting in planning and monitoring the budget for external consultants and control ongoing costs together with IT
- **External Communication:** Supporting the management of cross-company exchanges through an extensive expert network to ensure the competitiveness of software solutions together with IT
- **Strategic Development:** Assisting in monitoring the market environment and defining the strategic direction of consolidation and

Ready to drive with Continental? Take the first step and fill in the online application.

## Rólunk

Continental develops pioneering technologies and services for sustainable and connected mobility of people and their goods. Founded in 1871, the technology company offers safe, efficient, intelligent and affordable solutions for vehicles, machines, traffic and transportation. In 2022, Continental generated sales of €39.4 billion and currently employs around 200,000 people in 57 countries and markets.

The Automotive group sector comprises technologies for passive safety, brake, chassis, motion and motion control systems. Innovative solutions for assisted and automated driving, display and operating technologies, as well as audio and camera solutions for the vehicle interior, are also part of the portfolio, as is intelligent information and communication technology for the mobility services of fleet operators and commercial vehicle manufacturers. Comprehensive activities relating to connectivity technologies, vehicle electronics and high-performance computers round off the range of products and services.
