

ESH Internship - Summer

Jūsų užduotys

Project Intern will be working on:

The intern will support the design and proposal of ergonomic solutions, conduct assessments, and assist in improving employee well-being, comfort, and productivity. This role will provide hands-on experience in ergonomics and workplace design, ideal for students or recent graduates with an interest in health and safety, industrial design, or human factors.

Project Description and Objective (Include what the Intern will be learning):

- Ergonomic Assessments:** Assist in conducting workstation evaluations and ergonomic assessments for employees to identify potential risks and areas for improvement.
- Data Collection & Analysis:** Gather and analyze data from ergonomic assessments, employee surveys, and workplace observations to generate insights for design improvements.
- Project Support:** Help with the design, implementation, and evaluation of ergonomic interventions aimed at reducing musculoskeletal strain and improving overall workplace comfort.
- Workplace Observation:** Conduct in-person walkthroughs of workspaces to observe and document current ergonomic conditions and identify opportunities for improvement.
- Research & Recommendations:** Conduct research on best practices, new ergonomic tools, and technologies. Make recommendations for improving ergonomic practices across various departments.

Outcome of Project (Goals of what the intern should accomplish):

- Analyze current workplace ergonomic assessments to identify 3 potential projects.
- Collect additional data and/or research to propose suggested ergonomic solutions.
- Give presentation to administrative staff to select a final project to fund for 2025.
- Provide roadmap on executing the project.
