

# [Internship] - PowerApp & PowerAutomate Developer

## Your tasks

We are seeking a creative and detail-oriented intern to join our team as a PowerApps & Power Automate Developer. In this role, you will help maintain, support, and enhance existing solutions built on Microsoft Power Platform. You will also have the opportunity to improve the user interface of existing applications, contribute innovative ideas for process digitization, and collaborate on IT HUB digitalization initiatives.

## Key Responsibilities:

### 1. PowerApps Development & Maintenance:

- Support, troubleshoot, and enhance existing PowerApps solutions.
- Redesign and improve application user interfaces for better usability and visual appeal.

### 2. Power Automate Workflow Management:

- Maintain and optimize existing Power Automate workflows.
- Identify and resolve workflow issues to ensure seamless automation.

### 3. Process Digitalization:

- Propose and implement creative ideas to digitalize IT HUB processes using the Microsoft Power Platform.
- Collaborate with stakeholders to understand requirements and translate them into functional applications.

### 4. Testing & Documentation:

- Perform functional testing to ensure the reliability and accuracy of solutions.
- Document workflows, application changes, and user guides as needed.

### 5. Collaboration & Innovation:

- Work with cross-functional teams to gather feedback and continuously improve solutions.
- Stay updated on the latest Microsoft Power Platform capabilities and best practices.

## Your profile

- Currently pursuing a degree in Computer Science, Information Technology, or a related field.
- Basic experience with Microsoft Power Platform, including PowerApps and Power Automate.
- Familiarity with user interface (UI) design principles and tools is an advantage.
- Strong problem-solving and analytical skills.
