

Laboratory Technician

Vaše náplň práce

Position Summary

Main job functions

Testing and reporting of hose carcass adhesion, incoming goods, rubber compounds and PU.

Principle Accountabilities

Duties, Responsibilities and Key Tasks

In a timely manner prepare, test (sometimes witnessed by outside inspection) and report carcass adhesions to quality standards for production hoses to certify products.

Test and report PU hose covers and sample, mould, and test rubber compounds to the required standard.

Sample, test and label incoming goods and overage materials. Maintain efficient paper and electronic filing.

Perform cord extraction from solvent-soaked serviced hoses and to test.

Sample, test, and adjust concentration levels of wash reagents from the P3 fittings tanks.

Assist in training new staff and assist internal departments with their enquiries.

Carry out internal calibration checks on laboratory instrumentation.

Váš profil
