

Manufacturing Engineer Intern

Your tasks

The primary function of the Manufacturing Engineer Intern will be to maintain functional capacity on the automated line(s) within our facility. You will establish methods for solving technical problems, implement production management tools, work on the installation of new and replacement parts and review software.

HOW YOU WILL MAKE AN IMPACT

- In this internship role, you will have the opportunity to be on the floor to meet different challenges, make decisions and quickly see the results.
- You will build your own capabilities through the job experience, mentoring and training.

Your profile

WHAT YOU BRING TO THE ROLE

- Currently enrolled in a US accredited degree program in General Engineering, Electrical, Mechanical, Industrial, or Chemical Engineering Major
- Must have and maintain a minimum GPA of a 2.8
- Proficient Microsoft Office products (Word, Outlook, Excel)
- Ability to provide own housing near Clinton, MS area
- Legal authorization to work in the U.S. is required. We will not sponsor individuals for employment visas now or in the future for this job posting.

Our offer

THE ENVIRONMENT

- Safety is our highest priority and safety procedures / guidelines must be always adhered to. This includes safety wear such as company issued/approved steel toe shoes, safety glasses, hearing protection, etc. as needed in the required areas.
- The job is within a non-climate-controlled environment where you will be exposed to temperature swings (hot/cold), forklift and pedestrian traffic, and noise.
