

Functional Controller Qualification Testing (m/w/d)

Your tasks

We are seeking a highly analytical and detail-oriented Functional Controller / Data and Process Analyst to join our Worldwide Qualification Testing organization in Szeged or Nyíregyháza, Hungary. Key responsibilities include:

- Analyse existing Qualification Testing data, identifying standardization potentials and implementing necessary actions
- Develop and implement a ContiTech-wide standardized Qualification Testing KPI concept and methods
- Develop and drive implementation of Qualification Testing data concepts, ensuring management and quality assurance
- Maintain and optimize existing Qualification Testing data, metrics, and analytics standards
- Monitoring of controlling figures of the central Cost Centers
- Roll out and communicate developed standards across the organization
- Define and communicate strategic objectives for Qualification Testing financials, metrics and analytics
- Analyse training needs, create and execute training programs for related standards

Your profile

- Completed master's or diploma study of economics, business management, business informatics, engineering or comparable studies
- Several years of experience in data analysis, service analysis, or process analysis
- Longterm professional experience in finance and/or controlling or any related field
- Strong analytical skills with the ability to collect, organize, and analyze large datasets
- Experience with statistical analysis and data visualization tools (e.g., Tableau, Power BI)
- Solid understanding of qualification testing processes and quality management principles
- Excellent problem-solving skills and attention to detail
- Strong communication skills with the ability to present complex information clearly
- Experience working in a global or worldwide organization is preferred
- Ability to work independently and collaboratively in a fast-paced environment
- Fluency in English;

About us

Continental develops pioneering technologies and services for sustainable and connected mobility of people and their goods. Founded in 1871, the technology company offers safe, efficient, intelligent and affordable solutions for vehicles, machines, traffic and transportation. In 2022, Continental generated sales of €39.4 billion and currently employs around 200,000 people in 57 countries and markets.

The ContiTech group sector develops and manufactures, for example, cross-material, environmentally friendly and intelligent products and systems for the automotive industry, railway engineering, mining, agriculture and other key industries. Guided by the vision of “smart and sustainable solutions beyond rubber,” the group sector draws on its long-standing knowledge of the industry and materials to open up new business opportunities by combining various materials with electronic components and individual services.
