

HR IT Engineer Architecture & Integration (m/f/diverse) - REF75166S

Tvoji zadaci

We are seeking an experienced HR IT Engineer to serve as an Enterprise Architect with a focus on SAP and full-stack architecture, integration, and implementation. The successful candidate will be responsible for designing, implementing, and maintaining the overall architecture of our HR IT landscape, with a focus on SAP HCM, as well as SAP SuccessFactors. This role will work closely with HR, IT, and other stakeholders to ensure seamless integration and utilization of the system.

Key Responsibilities:

- Developing and Implementing Release Management and Migration Strategies for HR IT SAP system landscape (Cloud, Hybrid and onPrem)
- Consulting on Business Transformation, Transition and Target Architecture Management
- System and Process Monitoring
- Developing and maintaining a deep understanding of SAP Cloud Platform, including SAP Cloud Foundry, SAP Cloud Platform Integration, and SAP Cloud Platform API Management.
- Governance of our Landscape via IT System and Process Monitoring
- Stay up-to-date with the latest trends and developments in HR IT
- Ensuring Second Line of Defense with compliant system landscape and architecture
- Collaborating with cross-functional teams to design and implement HR IT infrastructure
- Providing technical leadership and guidance to junior team members
- Responsibility for managing external service providers

The position can be staffed in either Frankfurt, Regensburg or Hannover.

Tvoj profil

- Academic Degree in IT or comparable qualification
- Several years of professional experience in IT Management
- Profound Knowledge in IT Enterprise Architecture for SAP HCM with SAP onPrem and SAP Cloud
- Know-How on Platform Architecture
- Sound knowledge of SAP HCM, SuccessFactors and the relevant SAP cloud and on-premise solutions
- Understanding of enterprise architecture frameworks (e.g. TOGAF, Zachman) and their application in practice
- Knowledge of middleware technologies and APIs (e.g. REST, SOAP)
- Understanding of security protocols, authentication mechanisms and data protection requirements
