

# HR IT Service Owner Security Applications - IT (TM)

## Vos activités

As an IT Consultant specializing in HR Security Applications, you will be the primary point of contact for our customers, overseeing the global implementation and service operations of HR-related applications. Your responsibilities will include managing security and access control systems, time recording, and card printing solutions.

## Key Responsibilities:

- Management and coordination of the entire service chain and implementation of processes in the area of Security Applications (Physical Access Control, e.g., Interflex) in alignment with all stakeholders.
- Managing the information flow to stakeholders.
- Optimizing services through continuous improvements and the introduction of technical innovations in Physical Access Control.
- Ensuring service and process quality.
- Demand management, including effort and cost management in alignment with stakeholders and management.
- Planning and monitoring service costs.
- Consulting projects with interfaces to the owned services.
- Networking and cooperation with external software providers regarding future product developments in Security Applications.

## Votre profil

- Academic degree in Computer Sciences, Business Administration, Business Informatics, or similar.
- Several years of work experience in the mentioned fields.
- Profound knowledge and experience in IT Service Management.
- Experience in project management, ideally as a project lead and in managing external service providers.
- Knowledge in IT architecture is desirable.
- Experience with software solutions in Physical Access Control (e.g., Interflex) is an advantage.
- Fluent in English and very good German language skills (spoken and written).
- Excellent communication and moderation skills.
- Very good negotiation skills and the ability to find workable solutions for all stakeholders.
- Independent, structured, results- and customer-oriented work method.
- Willingness to travel (5-10%).
