

IT Engineer - Smartfactory Operations (m/f/diverse)

Your tasks

We are seeking a detail-oriented and analytical IT Engineer to join our Smartfactory Operations team in Timișoara, Romania. In this role, you will be at the forefront of implementing and maintaining cutting-edge smart manufacturing technologies, driving our digital transformation initiatives.

- Ensure operations for all Smartfactory solutions such as the Manufacturing Execution Systems (MES, e.g. SAP DM), Manufacturing Service Bus (MSB), IoT Edge Technology, Maschine Data Acquisition and Recipe Management System
- Offer 2nd level support of business solutions in the area of Manufacturing IT Applications
- Support/consult the central key user and the local key users in the plants for all Smartfactory solutions
- Drive active system monitoring
- Coordinate system upgrades and patches
- Support the digital transformation of the business with digitalization solutions
- Support the regional rollout of the Smartfactory solutions
- Overtake the responsibility to coordinate all infrastructure and other issue related activities
- Implement and refine IT best practices in the relevant areas: project management, portfolio management, service management
- Foster collaboration and cooperation with other teams and competence centers
- Support to steer and control external providers to ensure optimal world-wide service provisioning
