

Mustang: Senior IT Consultant Security Operations Center

工作职责

The Cybersecurity Consultant Security Operations Center works on a variety of topics within our growing team. If you feel ready to shape the future together with us, please expect involvement in the following exciting topics:

SoC Operation:

- Manage CrowdStrike MDR: Escalate MDR alerts, handle incidents according to playbooks, add business context to events, and manage actions.
- Accountable to investigate end point / sensor tampering alerts and ensure repairs are completed by responsible teams.

Oversee and manage the 3rd party teams working in the SoC, to ensure detection and response for topics such as edr, SIEM, KPI and Report analysis

Supporting the continuous development of SoC capabilities

Collaborate with internal stakeholders to develop decent cybersecurity maturity in our organization. Scale Cybersecurity according to business needs. Protect our environment. Together.

关于我们

Continental develops pioneering technologies and services for sustainable and connected mobility of people and their goods. Founded in 1871, the technology company offers safe, efficient, intelligent and affordable solutions for vehicles, machines, traffic and transportation. In 2022, Continental generated sales of €39.4 billion and currently employs around 200,000 people in 57 countries and markets.

The ContiTech group sector develops and manufactures, for example, cross-material, environmentally friendly and intelligent products and systems for the automotive industry, railway engineering, mining, agriculture and other key industries. Guided by the vision of “smart and sustainable solutions beyond rubber,” the group sector draws on its long-standing knowledge of the industry and materials to open up new business opportunities by combining various materials with electronic components and individual services.
