## About us

Continental develops pioneering technologies and services for the sustainable and connected mobility of people and their goods. Founded in 1871, the technology company provides safe, efficient, intelligent and affordable solutions for vehicles, machinery, traffic and transport. Continental generated sales of €39.4 billion in 2022 and currently employs around 200,000 people in 57 countries and markets.

The ContiTech Group Division develops and manufactures environmentally friendly, and intelligent products and systems for the automotive industry, railway technology, mining, agriculture, and other key industries, among other things. Guided by the vision of "smart and sustainable solutions beyond rubber", the division uses its many years of industry and materials knowledge to achieve a new level of efficiency by combining different materials with electronic components and individual components.
