

Internship Test Systems Support for QL (TM)

Jūsų užduotys

If you join our team as a Test Systems Support Internship, your responsibilities will be:

- Contribute to debugging, repairing and modifying our test equipment and setups;
- Participate to small design activities and laboratory improvement projects;
- Responsible for equipment's administration (repair, maintenance and calibration service);
- Offer support for test bench and equipment maintenance;
- Responsible to maintain internal material stock;
- Responsible for searching, ordering and managing the materials, external samples and services;
- Responsible for logistic activities (packaging, handling, delivery and tracking) of packages.

A mentor will support you to stepwise take over own responsibility after an initial training phase which will familiarize you with our products, tools, processes and organization.

Reikalavimai
