

# Testing Engineer

## Your tasks

- Good Experience in Schematic and PCB layout design Analysis.
- Hands-on experience in ICT Keysight i3070 machine and Its Trouble Shooting.
- Hands on experience in FCT, EOL, Vision testers with NI test stand ,Keysight test exc would be added advantage .
- Good Knowledge of Communication Protocols: CAN, UDS, LIN, RS232, TCP/IP, I2C, UART, SPI, JTAG etc.
- Working knowledge of handling electronic measurement equipment such as Oscilloscope, Multimeter, and Power supplies with different manufactures.
- Hand-on experience in Soldering skills and analysis of solders joints added advantage.
- Good knowledge on Electronic Hardware like Active, Passive components and Digital Electronics.
- Good knowledge in Microsoft Office
- Knowledge of basic Programming languages: C, C++, C#.
- Automotive experience will be an added advantage.

## Your profile

Diploma in E&C and Mechanical with 2 to 5yrs exp

## Our offer

- Support the In-circuit testers, Functional and final testers for components level testing and functional testing of various projects. (like Clusters, ACU, BCM and TCU etc ).
- Improve FPY and Cycle times.
- Restore production Test Systems to its original working condition in shortest possible time whenever the Test Systems is malfunctioning. (i.e. minimize interruption).
- Improve MTTR, MTBF and Carry systematic preventive maintenance to ensure Test Systems is always at its top working conditions.
- Regular inspection of Test Systems and its surrounding environment to ensure compliance to 5S/safety specifications.
- Keep track of Test Systems performance and maximize Test Systems utilization to help production achieve throughput and quality goals.
