

# Solution Architect External Access Services (m/f/d) - REF77037I

## Your tasks

The Solution Architect External Access Services will be responsible to design, implement, and optimize our Business Partner Access services portfolio together with the service team.

The incumbent will be responsible for designing a secure, reliable, and efficient architecture for external access that meets the needs of Continental Tires, connected companies and external partners.

Additionally, the role involves identifying synergies across other solutions within the Tires IT infrastructure portfolio to co-develop cohesive target designs.

### In detail your tasks include:

- **Architecture and Design:** Lead the redesign of Business Partner Access services to ensure they meet the evolving needs of Continental Tires. Develop and design robust architectures for external access services, ensuring they are secure, reliable, and efficient.
- **Stakeholder Management:** Work closely with internal and external stakeholders, including managed service providers, software and hardware vendors, technical teams, business units, and group sectors, to understand their needs and ensure the solutions align with their requirements.
- **Technical Leadership:** Provide technical leadership and guidance on BPA technologies, best practices, and industry standards and oversee the implementation of redesigned external access solutions, ensuring they are deployed effectively and efficiently.
- **Continuous Improvement:** Continuously monitor and optimize the performance of BPA services to ensure high availability and reliability, derive optimizations and ensure all solutions comply with relevant security standards, regulations, and best practices.
- **Documentation:** Maintain comprehensive documentation of solution designs, architectures, and implementation processes.

## Your profile

### Your qualification:

- Academic degree in Computer Science, Information Technology or equivalent experience
- Several years of experience in network architecture or a related role, with a focus on VPN and RADIUS.

### Skills:

- Strong understanding of network technologies protocols.
- Experience with network security principles and best practices.
- Proficiency in designing and implementing complex network architectures.
- Experience in cloud environments (preferably AWS, Azure, Alibaba

## About us

Continental develops pioneering technologies and services for sustainable and connected mobility of people and their goods. Founded in 1871, the technology company offers safe, efficient, intelligent and affordable solutions for vehicles, machines, traffic and transportation. In 2022, Continental generated sales of €39.4 billion and currently employs around 200,000 people in 57 countries and markets.

With its premium portfolio in the car, truck, bus, two-wheel and specialty tire segment, the Tires group sector stands for innovative solutions in tire technology. Intelligent products and services related to tires and the promotion of sustainability complete the product portfolio. For specialist dealers and fleet management, Tires offers digital tire monitoring and tire management systems, in addition to other services, with the aim of keeping fleets mobile and increasing their efficiency. With its tires, Continental makes a significant contribution to safe, efficient and environmentally friendly mobility.
