

# Provider Manager Local Network Services

## Náplň práce

The Provider Manager for Local Network Services to oversee and manage our network service providers. The ideal candidate will ensure the delivery of high-quality network services, maintain strong relationships with providers, and drive continuous improvement in service delivery.

### In detail your tasks include:

- **Provider Management:** Oversee and manage relationships with local network service providers, ensuring compliance with service level agreements (SLAs) and performance standards. Align provider demand, requesting quotes, check quality, document & track status of orders, coordinate CoF signatures, implementation planning with locations and central operations.
- **Contract Negotiation:** Negotiate contracts and agreements with network service providers to secure the best terms and conditions.
- **Performance Monitoring:** Monitor and evaluate the performance of network service providers, ensuring they meet or exceed established SLAs.
- **Issue Resolution:** Address and resolve any issues or disputes with network service providers promptly and effectively.
- **Continuous Improvement:** Identify opportunities for improving network services and work with providers to implement enhancements. Coordinate any changes required to the provider equipment/lines (routing adjustments, location moves, provider switches for locations (cost, quality driven,...) with providers.
- **Budget Management:** Manage the budget for local network services, ensuring cost-effective solutions without compromising quality.
- **Reporting:** Prepare and present regular reports on provider performance, service quality, and network reliability to senior management.
- **Collaboration:** Work closely with internal teams, including IT, operations, and procurement, to ensure seamless network service delivery.
