

Regional Manager for Supplier Development

Vos activités

We are seeking a dynamic and strategic Global Manager for Supplier Development to join our team in Yang Pu Qu, China. In this pivotal role, you will lead our worldwide supplier development initiatives, driving continuous improvement and fostering strong partnerships with our global supplier network.

- Develop and implement strategic plans to enhance supplier performance and capabilities across our global supply chain
- Collaborate with cross-functional teams to identify areas for supplier improvement and cost reduction opportunities
- Lead supplier assessment and selection processes, ensuring alignment with organizational goals and quality standards
- Design and execute supplier development programs to address performance gaps and drive continuous improvement
- Analyze supplier performance metrics and implement data-driven strategies to optimize supplier relationships
- Negotiate contracts and agreements with key suppliers to ensure favorable terms and conditions
- Manage a team of supplier development professionals, providing mentorship and guidance
- Travel internationally to conduct on-site supplier audits and improvement initiatives
- Develop and maintain strong relationships with suppliers, fostering a culture of collaboration and innovation
- Implement risk management strategies to mitigate supply chain disruptions and ensure business continuity
